OBJECTIVE

Search Visibility

SEO determines whether a website can be found. Without it, even well-designed sites remain **invisible** to search engines and potential visitors.

Credibility & Trust

Optimized sites rank higher, signaling **authority** and **relevance**. Users are more likely to trust and engage with pages that appear at the top of results.

Sustainable Traffic

Unlike paid ads, SEO drives **long-term organic traffic**. Properly structured pages continue attracting visitors without ongoing spend.

METHODOLOGY

01

Built the site

- Built a 2-page HTML/CSS site
- Deployed live on GitHub Pages
- [Site Link](#)

02

GA4 Baseline

- Embedded *Google Analytics 4* on both pages before any SEO.
- Recorded baseline traffic data over 3 days.

03

Applied SEO

- Added meta descriptions with target keywords.
- Structured headings using H1/H2 hierarchy, canonical URLs, and alt texts.
- Added a **sitemap.xml**.

04

Evaluated

- Ran a *Google Lighthouse* audit on the optimized site.
- Verified SERP appearance using a snippet preview tool.
- Compared GA4 metrics before and after SEO implementation.

KEY FINDINGS

01

Satisfactory *Lighthouse* Scores

- A perfect score of **100/100** after implementing all on-page SEO elements.
- Performance scored **97/100** with a First Contentful Paint of **0.9s**.

02

SERP Preview Validated

- Title and meta description render correctly in *Google* search results.
- All target keywords are present and within character limits.

03

GA4 Growth

- After SEO implementation, sessions grew and diversified to include organic social traffic.

KEY FINDINGS

SERP Preview Validated

Using the *HigherVisibility* SERP Snippet Optimizer, **the title and meta description** were confirmed to display correctly. The **URL, title, and description** all rendered as intended within Google's recommended limits.

KEY FINDINGS

GA4 Growth

Before SEO implementation, the site saw minimal traffic with very few **views** and **users**, all coming from direct sources only.

Before

KEY FINDINGS

GA4 Growth

Following SEO implementation on March 8, GA4 recorded a consistent and sustained increase in views and user count, rising steadily through to March 10. Compared to the period before, **views** and **user engagement** more than doubled, strongly suggesting that SEO directly contributed to **improved site visibility**.

After

KEY FINDINGS

Before

GA4 Growth

Before SEO implementation, the site recorded minimal **sessions** with an **average duration** of **under 2 minutes** and a **bounce rate** of **30%**

KEY FINDINGS

After

GA4 Growth

After SEO implementation, **sessions** grew steadily and consistently through to March 10, with **average session duration** jumping to **over 5 minutes** and events per session increasing, which indicates that users were not only arriving more frequently but **engaging more deeply** with the content.

SUMMARY

Effective SEO is foundational to any **successful e-commerce presence**. Our implementation demonstrated this directly, with measurable improvements in traffic and engagement following optimization, confirming that SEO is a practical and high-impact tool for driving **organic growth**.
